Helpful tips for purchasing uniform during the summer holidays

- The first few weeks of the summer holidays are generally quieter in our shops and online.
- **If you are visiting our shops during the last two weeks of the summer holidays please expect to queue outside of the shop and allow more time for your visit.**
- Our shops will still need to close at the advertised closing times and we may have to cut the queue short to ensure we can serve the customers we already have in the shop. This also gives us the opportunity to replenish stock and prepare the shop for the following day.
- **If ordering online, please place your order by our advertised 'last order date' to ensure your garments arrive in time for 'back to school', we still dispatch orders placed after this date and will do our utmost to get them to you in time.**
- If ordering online remember to take advantage of our free online delivery code **SUMMER25** running from 19th July – 26th July
